

## High volume recruitment

### winning solution for high volume

This is the ultimate HR solution designed to meet the demands of high volume recruitment. It is designed for businesses who process thousands of applications every week, in particular those with a call centre function. It's packed with features to meet all the business challenges of the modern recruiter.

So no more hair pulling. No more worrying about who is where in your recruitment process. Whatever your specific recruitment needs, **TalentTracker**® Enterprise can be tailored to give you the solution that's an exact match for your business needs.

This is a complete end-to-end recruitment solution that is easy to use whether you are the HR professional or the candidate.

It will allow you to make significant time and cost savings in your current recruitment process, whilst identifying the right candidates for the job much quicker in the process.

### our flexible features

Our ultimate recruitment solution includes a superior range of features to benefit businesses in the management of the entire recruitment process. Not only will your business benefit, candidates will have a positive experience of your application process.

- Careers website
- Online application
- Vacancy management
- Applicant tracking
- Screening and selection
- Correspondence management
- Automated workflow
- Reporting
- Talent Bank

#### Additional Modules

As a bespoke application we can create a system to meet your needs and have already implemented additional modules for clients including an agency portal, company intranet and e-learning toolkits.

# TalentTracker<sup>®</sup> Enterprise
